About me

Digital designer and developer with experience **in UI/UX, research, and web development.** I have participated **in academic projects and organizational collaborations,** applying **agile methodologies and digital tools** to optimize processes.

I stand out for my **proactivity, organizational skills, and my strength in problem-solving.** Passionate about **programming**, with a focus on **front-end** and the **creation of interactive experiences.**

Experience

Gases de Occidente

UI/UX Designer and Developer — 2024

Contributed to the creation of a digital platform to improve the gasification process in construction projects. Managed the construction of interactive components and the visual interface, optimizing communication and technical support while reducing reliance on physical records.

Ritual of Madness

UI Designer and Front-End Developer — 2024

Participated in the design and development of a hybrid card game (physical/digital) based on hidden roles and majority voting. Took charge of system conceptualization, user experience design, and interface implementation, integrating strategic mechanics for an interactive game experience.

Trasnochon Event - Cooperativa Coomeva

Digital Solutions Designer / UX Innovator — 2022

Took part in an intense innovation session of 12 hours, designing a digital proposal to transform the customer interaction experience projected towards 2030. Contributed to rapid ideation and prototyping of the solution, focusing on user experience.

Innovation Measurement Tool

UX/UI Developer — 2025 - Present

Joined the development team for a digital platform aimed at measuring innovation within companies. Contributed to the implementation of metrics, data visualization for strategic analysis, and UX/UI interface design.

Education

Universidad ICESI

Bachelor’s Degree in Interactive Media Design — 2021 - 2026

Colegio Sagrada Familia – Palmira

High School Diploma — 2020
